This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a feasibility study for a new jewellery store, manufacturing unit or expansion — market and location, investment and stock, economics, break-even and risks (gold price, working capital) — to decide before committing. Describe the opportunity below.

Purpose of this tool & output

Test a store or expansion before investing

How the output is used

Use it to test a store or expansion before investing — the catchment, footfall, ticket size and gold-capital economics.

Who should vet it

An experienced jeweller or your CA, to sanity-check the ticket size, margin and gold-capital assumptions before you invest.

Important cautions

AI-generated study; validate location footfall, margins and working capital before investing.
