Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produce an inventory management SOP for a jewellery business — tagging and stock records (weight/purity/stones), receipt and issue, custody controls, and reconciliation — to control high-value stock and prevent loss. Describe your operation below.

Purpose of this tool & output

Track high-value stock to the gram

How the output is used

Use it to track high-value stock to the gram — an inventory SOP with tagging, weight and reconciliation for precious stock.

Important cautions

AI-generated SOP; enforce dual custody and reconcile on a fine-metal basis.
