

Karigar / Artisan Management System

Gems & Jewellery

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a system to manage karigars/artisans — metal issue and receipt, wastage/loss norms and reconciliation, job tracking, quality and payment — to control India's core jewellery-making risk: metal loss. Describe your setup below.

Purpose of this tool & output

Control metal, wastage and quality with karigars

How the output is used

Use it to control metal, wastage and quality with karigars — a system for issuing metal, tracking wastage and receiving finished pieces.

Important cautions

AI-generated system; metal-loss control is the core risk - set tight norms and reconcile every job.
