

Lab-Grown Diamond Business Guide

Gems & Jewellery

Document type: Plan / SOP / strategy / guide · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a guide to dealing in lab-grown diamonds — how they differ from natural, sourcing and grading, pricing and positioning, disclosure/ethics, and the business opportunity and risks — to enter the category credibly. Describe your context below.

Purpose of this tool & output

Enter lab-grown the right way

How the output is used

Use it to enter lab-grown the right way — the product, disclosure, pricing and positioning of lab-grown diamonds.

Important cautions

AI-generated guide; always clearly disclose lab-grown vs natural and keep stock strictly separated.
