

Jewellery Manufacturing Unit Setup

Gems & Jewellery

Document type: Plan / SOP / strategy / guide · Generated 28 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a guide to setting up a jewellery manufacturing unit — process and equipment (casting, CAD/CAM, setting, polishing), karigar team, metal control and security, and licences — to make jewellery in-house. Describe the plan below.

Purpose of this tool & output

Set up a karigar / manufacturing unit

How the output is used

Use it to set up a karigar or manufacturing unit — the workshop, tools, karigar model and metal controls a making unit needs.

Important cautions

AI-generated guide; metal-loss control and security are critical - set up strong systems.
