This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get an organisation and role structure for a jewellery business — sales floor, back-office (billing/accounts/stock), karigar/production coordination, and management — with responsibilities and controls, sized to your business. Describe it below.

Purpose of this tool & output

Organise sales, back-office and karigars

How the output is used

Use it to organise sales, back-office and karigars — a structure where selling, accounts and making each have clear owners.

Important cautions

AI-generated structure; build in separation-of-duty controls for high-value stock.
