

Jewellery Business P&L

Gems & Jewellery

Document type: Financial model / analysis · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Build a profit-and-loss view for a jewellery business — revenue (metal vs making), cost of goods, operating costs and profit, with margins and the making-charge/metal split — to understand and improve profitability. Enter your figures below.

Purpose of this tool & output

Where the margin really comes from

How the output is used

Use it to see where the margin really comes from — a business P&L across metal margin, making, exchange and overhead.

Who should vet it

Your CA or accountant, to confirm the metal-margin and making inputs against your actual books.

Important cautions

AI-generated analysis; validate with your accounts - jewellery margin sits in making/mix and buying, not gold value.
