This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a structured stock valuation for a jewellery business — metal value at current rate, stone value, and making/cost basis — to value inventory for accounts, working-capital/gold-loan, insurance or audit. Enter the stock details below.

Purpose of this tool & output

Value inventory for accounts, loan or audit

How the output is used

Use it to value inventory for accounts, a loan or audit — a stock valuation across metal, stones and making at current rates.

Who should vet it

Your CA or a certified valuer, to confirm the valuation basis for accounts, a loan or an audit.

Important cautions

AI-generated valuation; use current rates and the correct accounting/valuation basis; a certified valuer may be needed for formal use.
