

Theft & Shrinkage Prevention Policy

Gems & Jewellery

Document type: Policy · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a theft and shrinkage prevention policy for a jewellery business — internal controls (custody, dual-handling, checks), external security, high-risk points (workshop, memo, transit), and investigation — to minimise loss lawfully. Describe your business below.

Purpose of this tool & output

Protect stock from internal and external loss

How the output is used

Use it as a theft and shrinkage prevention policy — the controls, checks and accountability that protect stock from internal and external loss.

Who receives it

It is an internal policy owned by the proprietor and applied to all staff who handle stock, shared and enforced across the team.

Important cautions

AI-generated policy; keep searches/investigations within legal limits and respect employee rights.
