

Grievance Escalation Ladder Planner

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Maps the complete escalation ladder for a grievance that is stuck — from the internal or nodal officer, to the sectoral ombudsman or regulator, to the relevant commission or forum, and finally to court — telling you the right forum at each rung, the prerequisite before you can climb, and drafting the escalation letter for the next step.

Purpose of this tool & output

Map the full escalation ladder for a stuck grievance — internal nodal, ombudsman, regulator/commission, then court — with the draft at the next rung

How the output is used

Use the mapped ladder — the right forum at each rung, the prerequisite before you can climb, and the drafted letter for the next step — to escalate a stuck grievance from the nodal officer to the ombudsman/regulator to the commission and finally to court.

Important cautions

Each rung has its own prerequisite and time limit — a higher forum often will not hear you until the lower one is exhausted, and the court step needs an advocate. Verify the correct order and the prerequisites.
