

Exam Re-evaluation / Result Grievance Representation

Document type: Letter / notice · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a reasoned representation to a board or university for a re-evaluation or revaluation, a result or grievance correction, or against an unfair examination decision (a withheld result, an unfair-means allegation) — with the grounds, the relief and the evidence — to actually get the marks or result reviewed.

Purpose of this tool & output

Draft a re-evaluation, revaluation or grievance representation to a board or university over marks, results or an examination decision

How the output is used

Use the drafted representation, the grounds and the evidence index to file the re-evaluation, revaluation or grievance with the board or university, and use the RTI route to obtain a certified answer-script copy where it strengthens the case.

Who receives it

The board or university examination authority (the controller of examinations or the grievance or revaluation cell).

How to submit / file it

File the representation within the revaluation or grievance window with the exam and result details, the grounds and the fee, and file an RTI for the answer-script copy where useful.

Who should vet it

No professional is generally needed; a withheld result or an unfair-means allegation with serious consequences may warrant a lawyer.

Important cautions

The re-evaluation or revaluation window is short and often non-extendable, and an unfair-means or withheld-result matter follows the examination ordinance; a certified answer-script via RTI is often the strongest evidence. This is a drafting aid.
