

Multi-Act Labour Compliance Pack (Returns & Registers)

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds the ongoing labour-law compliance an establishment must maintain across the applicable Acts — the registers, the periodic returns, the abstracts to display, and a compliance calendar — mapped to the establishment size and type, so nothing is missed at an inspection.

Purpose of this tool & output

Build the multi-act labour compliance for an establishment — the applicable registers, returns and a compliance calendar

How the output is used

Use the mapped registers, returns, display abstracts and the compliance calendar — matched to the establishment size and type across the applicable labour Acts — to run the ongoing compliance and be ready for an inspection.

Important cautions

The applicable Acts and the registers/returns depend on the establishment size, the state and whether the labour codes are in force, and they change; a miss invites a penalty at inspection. Verify the applicable Acts and due dates with a labour consultant.

Companion documents
