

PM-KISAN Issue Fix & Grievance

Document type: Letter / notice · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Resolves a PM-KISAN problem so the instalments resume — an eligibility or eKYC issue, a land-seeding or Aadhaar/bank name mismatch, or a wrongful exclusion — by identifying the exact blocker, listing the correction steps, and drafting the grievance where a manual fix is needed.

Purpose of this tool & output

Fix a PM-KISAN issue — eligibility, eKYC, land-seeding or bank mismatch — and draft the grievance to restart stopped instalments

How the output is used

Use the blocker identification, the correction steps and the drafted grievance to fix the eKYC, land-seeding or Aadhaar-bank mismatch on the portal or through the CSC, and where a manual fix is needed, submit the grievance to the district agriculture officer to restart the instalments.

Who receives it

The PM-KISAN portal or the CSC for the corrections; for a manual correction or restoration, the district agriculture officer.

How to submit / file it

Complete the eKYC, land-seeding or bank correction on the portal or via the CSC, and where the issue persists, submit the grievance or representation with the facts and the entitlement to the district agriculture officer.

Who should vet it

No professional is needed; the CSC operator or the village revenue or agriculture official assists with the seeding and eKYC.

Important cautions

A stopped instalment is almost always an eKYC, land-seeding or Aadhaar-bank name mismatch, or an exclusion flag, and each has a specific fix; an income-tax or exclusion flag needs the eligibility clarified before restoration. Verify on the PM-KISAN portal.

Companion documents
