

Transport Business Registration — Fleet / Aggregator / Driving School

Document type: Licence / statutory filing · Generated 13 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Prepares the registration or licence application for a transport business — a commercial fleet operator, a cab or goods aggregator (under the Motor Vehicle Aggregator Guidelines), or a motor driving training school — with the eligibility, the infrastructure and compliance requirements, and the document set.

Purpose of this tool & output

Prepare registration for a transport business — commercial fleet operator, cab/goods aggregator licence, or motor driving school

How the output is used

Use the output to file the correct licence or registration for the transport business (an aggregator licence, a driving-school licence, or fleet permits), set up the required infrastructure, and pay the fees and security deposit.

Who receives it

The State Transport Department (aggregator licence), the licensing authority (driving school), or the RTA (fleet permits), via the transport portal.

How to submit / file it

Apply with the business documents, the infrastructure proof (control room and app for an aggregator; premises, ground and vehicles for a driving school), insurance and the promoter details; an inspection may follow.

Fees & charges

The licence fee and a security deposit (notable for an aggregator); renewal and compliance conditions apply.

Who should vet it

A transport or legal consultant familiar with the Motor Vehicle Aggregator Guidelines or the driving-school rules of your state.

Important cautions

An aggregator or driving school run without the licence attracts penalties and closure; the infrastructure and compliance conditions are specific and state-wise. Confirm the current rules with the authority.
