

PM Surya Ghar Rooftop-Solar Application & Subsidy

Document type: Licence / statutory filing · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Prepares a PM Surya Ghar: Muft Bijli Yojana rooftop-solar application for a home — checking eligibility, sizing the plant to the consumption, computing the central subsidy by capacity slab, and coordinating the DISCOM net-metering and empanelled-vendor steps. Complements the Self-Service solar tools (sizing, net-metering guide) with the scheme application itself.

Purpose of this tool & output

Prepare a PM Surya Ghar (Muft Bijli) rooftop-solar application — eligibility, subsidy computation, net-metering and vendor coordination

How the output is used

Use the eligibility check, the sized plant and the computed subsidy to register on the National Portal for PM Surya Ghar, apply through your DISCOM, pick an empanelled vendor, and claim the central subsidy after installation and net-meter inspection.

Who receives it

The National Portal for PM Surya Ghar (MNRE) and your electricity distribution company (DISCOM); the subsidy (CFA) is credited to your bank account after inspection.

How to submit / file it

Register on the national portal with the electricity account and consumption, apply for feasibility, install through an empanelled vendor, and apply for net-metering and inspection; the subsidy is released after the DISCOM verifies the installation.

Fees & charges

No application fee; the plant cost is borne by the consumer and the central subsidy (by capacity slab) is credited back after installation.

Who should vet it

An empanelled solar vendor (and your DISCOM) — to confirm the roof feasibility, the correct plant size for your load, and the net-metering.

Important cautions

The subsidy is slab-capped (per kW up to a ceiling) and only for eligible domestic consumers with an approved vendor and net-meter; an installation before feasibility approval or by a non-empanelled vendor can lose the subsidy. Verify the current subsidy slabs on the national portal.

Companion documents
