

Patient Information Leaflet

Healthcare

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a Patient Information Leaflet in plain language (India context) — what it is, uses, how to take, side effects, warnings and storage. Must be medically verified before use. For a clinician-facing SmPC use the Product Monograph Draft.

Purpose of this tool & output

Draft a PIL for a medicine

How the output is used

Use the drafted patient information leaflet to explain a medicine — use, dose, side effects and warnings — in plain language.

Important cautions

AI-generated draft; must be medically verified and comply with CDSCO/labeling rules; not medical advice.

Companion documents

- Pharma Regulatory Writing
- Study Protocol Synopsis
- CDSCO Submission Guide
- Pharmacovigilance / AE Narrative
- Product Monograph Draft

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and processes vary by state and change over time — confirm with your state authority.
