

Home Services Business Plan

Home & Repair Services

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a structured business plan for a home-services business — market, service model, technician/ops model, unit economics and growth, and milestones. Use it for a loan or investor. For per-job economics use the Job Costing & Pricing Model.

Purpose of this tool & output

Bank- and investor-ready plan

How the output is used

Use it to raise a bank loan or investment — a plan with market, model, unit economics and financials for a home-services business.

Important cautions

Home services is a trust-and-repeat business; model customer acquisition cost against repeat/AMC value carefully. Competing with aggregators needs a service or trust edge.
