Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a transparent, published rate card for common jobs — clear prices or price ranges with what is included — so customers trust your pricing, haggling drops, and technicians cannot over- or under-charge. Use it to standardise pricing. For the full catalog use the Service Catalog & Menu Planner.

Purpose of this tool & output

Publish rates that build trust and cut haggling

How the output is used

Use it to publish rates that build trust and cut haggling — a transparent rate-card builder that customers can see before booking.

Important cautions

Honest ranges are fine where diagnosis is needed; transparent published pricing builds trust and prevents technicians from over- or under-charging customers.
