Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds job quality checklists and a before/after documentation practice — trade-specific completion checks and before/after photos — so quality is verified, disputes are avoided, and work can be shown to the customer. Use it to assure quality. For the SOP use the Service Delivery SOP.

Purpose of this tool & output

Verify quality with checklists and photos

How the output is used

Use it to verify quality with checklists and photos — a quality checklist and before/after documentation that proves the work.

Important cautions

Before/after photos and a completion walkthrough prove work quality, prevent he-did-not-do-it disputes, and let you show value — especially for cleaning, pest and painting jobs.
