

On-Site Safety Protocol

Home & Repair Services

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds an on-site safety protocol — electrical safety, working at heights, chemical/pest and gas/refrigerant handling, tool safety, and protecting the customer home and occupants — so jobs are done without injury or damage. Use it to prevent accidents. For customer-home respect use the Cleanliness & Home-Respect Standards tool.

Purpose of this tool & output

Keep technicians and customers safe on the job

How the output is used

Use it to keep technicians and customers safe on the job — an on-site safety protocol for electrical, chemical and physical risks.

Important cautions

Electrical, heights, chemicals and gas are real injury risks; enforce PPE and safe procedures for technician AND customer/occupant safety. Carry insurance for on-site accidents and damage.
