This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts standard service terms and conditions with each term separate — pricing and estimates, warranty, parts, liability for damage, cancellation/visit charge, and dispute handling — so every job runs on clear, fair, defensible terms. Use it as your standard T&C. For credit AMC use the AMC / Service Contract & Terms tool.

Purpose of this tool & output

Fair, protective terms on every job

How the output is used

Use it to put fair, protective terms on every job — warranty, scope, liability and payment terms that reduce disputes.

Who receives it

The terms apply to every customer, are owned by the operator, and are shown at booking or on the job sheet before work starts.

Important cautions

AI-generated draft; keep terms fair and consumer-law compliant (a court will not enforce one-sided or unfair terms); own accidental-damage liability but exclude pre-existing/consequential. A lawyer should review.
