

Technician Employment / Partner Agreement

Home & Repair Services

Document type: Contract / agreement · Generated 16 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a technician employment or gig-partner agreement with each term separate — role, pay/commission, conduct and child/customer safety, verification, honesty and no-direct-dealing, tools/uniform, and termination — so technicians are bound to standards and trust obligations. Use it for technicians/partners. For the trust protocol use the Background Verification & Trust Protocol.

Purpose of this tool & output

Engage technicians on clear discrete terms

How the output is used

Use the draft to engage technicians on clear discrete terms — role, pay, conduct, cash accountability and non-solicit — reviewed for labour law.

Who receives it

The agreement is between the business and the technician (employee or partner); each keeps a signed copy.

Fees & charges

Usually executed on nominal stamp paper per your state; no heavy stamp duty for a simple engagement.

Who should vet it

A lawyer or labour-law consultant, to align the terms with labour law and word the cash and non-solicit terms correctly.

Important cautions

AI-generated draft; bind technicians to verification, honesty and customer-safety obligations and protect against them taking customers direct; keep employee-vs-gig status genuine. A lawyer should review.
