

# Uniform, ID & Kit Standards

Home & Repair Services

Document type: Plan / SOP / strategy / guide · Generated 13 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

## Background

Defines uniform, ID and tool-kit standards for technicians — branded uniform and visible ID, a complete trade tool-kit and consumables, cleanliness gear (shoe covers, floor sheet), and safety equipment — so technicians look professional, trustworthy and are properly equipped. Use it to set field standards. For onboarding use the Technician Onboarding & Standards tool.

## Purpose of this tool & output

Make technicians look professional and equipped

## How the output is used

Use it to make technicians look professional and equipped — uniform, ID and kit standards that build trust at the door.

## Important cautions

A uniformed, ID-wearing, fully-equipped technician builds instant trust and completes jobs in one visit; carrying common spares avoids the frustrating and costly second visit.
