

Coverage Comparison (2+ Policies)

Insurance

Document type: Financial model / analysis · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Compares two or more policies feature by feature — sum insured, room rent, co-pay, waiting periods, exclusions, premium — and recommends by value. Use it to pick between policies. To understand one policy deeply, use the Policy Plain-English Summary.

Purpose of this tool & output

Compare policies side by side

How the output is used

Use the comparison to weigh two or more policies side by side on cover, limits, exclusions and price.

Who should vet it

An insurance broker, to confirm the like-for-like comparison.

Important cautions

AI-generated comparison; verify against policy wordings.

Companion documents
