This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Checks an event vendor's insurance — public liability, equipment, staff cover — against venue/host requirements and flags gaps. Use it before an event to avoid an uninsured vendor. For general vendor certificates, use the COI Review & Compliance Check.

Purpose of this tool & output

Verify an event vendor is properly insured

How the output is used

Use it before an event to check each vendor public-liability and equipment cover against venue/host requirements.

Who should vet it

An insurance broker/venue risk manager, to confirm the required cover.

Important cautions

AI-generated check; confirm with the venue and a broker.
