Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Summarises a loss run into an underwriter-friendly view — frequency, severity, trend, open/closed and large-loss context with positive framing. Use it to present loss history well in a submission. For renewal analysis of the same data, use the Loss-Run Analysis.

Purpose of this tool & output

Summarise loss history for underwriters

How the output is used

Use the generator to summarise loss history for underwriters clearly, so it does not raise avoidable questions.

Important cautions

AI-generated summary; must match the official loss run.
