This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Reviews whether employee roles are correctly classified for WC/premium rating and flags costly misclassifications (e.g. clerical staff lumped with factory workers). Use it to cut premium overpayment. To build the dispute, use the Class-Code Dispute Builder.

Purpose of this tool & output

Validate role classifications for WC rating

How the output is used

Use the reviewer to validate role classifications used for workers-comp rating and to correct the wrong ones.

Who should vet it

A workers-comp consultant, to confirm the classifications.

Important cautions

AI-generated review; insurer/surveyor determines final classification.
