

Personal Insurance Portfolio Review

Insurance

Document type: Financial model / analysis · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Reviews an individual/family insurance portfolio for adequacy — term life, health, personal accident, critical illness and home — with priority actions. Use it for a personal cover health-check. For renewal upgrades to a health policy, use the Coverage Upgrade Recommender.

Purpose of this tool & output

Review an individual or family cover mix

How the output is used

Use the review to check an individual or family cover mix (life, health, motor, home) for gaps and overlaps.

Who should vet it

A personal-insurance advisor, to confirm the cover mix and sums.

Important cautions

AI-generated review, not financial advice; consult a certified advisor.

Companion documents
