

Product Liability Gap Check

Insurance

Document type: Financial model / analysis · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Assesses product-liability cover adequacy for a manufacturer/exporter — including export-market (US/EU) exposure, recall cover and territory extension. Use it if you make/sell products, especially abroad. For a full program, use the Business Insurance Needs Assessor.

Purpose of this tool & output

Assess cover for product-related claims

How the output is used

Use the check to assess your cover for product-related claims across your products and markets.

Who should vet it

An insurance broker, to confirm the product-liability cover and limits.

Important cautions

AI-generated assessment; a broker should confirm limits and territory.
