

Interior BOQ Preparation

Interior Design & Architecture

Document type: Financial model / analysis · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Generate a bill of quantities for an interior project — item-wise works, units, quantity basis and specification — structured so it can be priced accurately and compared across contractors. Describe the scope below.

Purpose of this tool & output

A complete, priceable bill of quantities

How the output is used

Use it to build a complete, priceable bill of quantities — a BOQ that lists every item and quantity for accurate pricing.

Who should vet it

A quantity surveyor or senior estimator, to confirm the quantities and items against the drawings before pricing.

Important cautions

AI-generated BOQ; verify quantities from measured drawings and confirm rates.
