Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a colour scheme for a home or room — a coherent palette (base, secondary, accent), room-wise application, and how it works with light and materials — to create a harmonious, mood-right home. Describe the requirement below.

Purpose of this tool & output

A palette that ties the home together

How the output is used

Use it to tie the home together with a palette — a colour scheme and palette that works across rooms and light.

Important cautions

AI-generated scheme; verify shades with samples in the actual light.
