Drawing Issue & QA Checklist

Interior Design & Architecture

Document type: Plan / SOP / strategy / guide · Generated 16 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a QA checklist to review an interior working-drawing set before issuing to site — completeness, coordination (electrical vs ceiling vs furniture), dimensions, and constructability — so drawings do not cause site errors and rework. Describe the set below.

Purpose of this tool & output

Catch drawing errors before site does

How the output is used

Use it to catch drawing errors before site does — a drawing issue and QA checklist that prevents costly site mistakes.

Important cautions

AI-generated checklist; a coordinated set prevents costly site rework.
