This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get an interior design direction for a hotel or hospitality space — lobby, guest rooms, F&B/common areas, or a boutique property — covering guest experience, durable materials, and operational practicality. Describe the property below.

Purpose of this tool & output

Guest spaces that feel and function well

How the output is used

Use it to design guest spaces that feel and function well — a hotel/hospitality interior balancing experience and operations.

Important cautions

AI-generated direction; hospitality needs durable, operationally-practical detailing - develop with drawings.
