

Modular vs Site Carpentry Advisor

Interior Design & Architecture

Document type: Plan / SOP / strategy / guide · Generated 28 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get advice on whether to go factory-modular or site-carpentry for a project — comparing quality, finish, timeline, cost and site conditions — so you choose the right approach for the client and project. Describe the situation below.

Purpose of this tool & output

Choose factory-made or on-site

How the output is used

Use it to choose factory-made or on-site — a modular-versus-site-carpentry advisor weighing cost, quality, time and flexibility.

Important cautions

AI-generated advice; validate with local vendor quality and quotes.
