This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a package and per-sq-ft pricing model for a turnkey interiors business — tiered packages (essential/premium/luxury) with inclusions and price/sq-ft — so clients get transparent, comparable pricing and you protect margin. Describe your business below.

Purpose of this tool & output

Productise interiors into clear packages

How the output is used

Use it to productise interiors into clear packages — a package or per-sq-ft pricing model that makes pricing simple and comparable.

Important cautions

AI-generated model; ensure per-sq-ft pricing maps to actual BOQ cost or margins erode.
