

Requirement Capture Questionnaire

Interior Design & Architecture

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Generate a client requirement questionnaire for an interior project — covering lifestyle, room-wise needs, style, storage, budget and practical constraints — to capture everything in the first meeting and avoid surprises. Describe the project type below.

Purpose of this tool & output

Ask the right questions upfront

How the output is used

Use it to ask the right questions upfront — a requirement-capture questionnaire that avoids costly rework later.

Important cautions

AI-generated questionnaire; adapt to the project and client.
