

Architecture Decision Record

IT & Tech Compliance

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Writes an Architecture Decision Record — context, decision, options considered with pros/cons, and consequences — in standard ADR format. Use this to record a technical decision; for broader docs use the Technical Documentation tool.

Purpose of this tool & output

Document a technical decision

How the output is used

Use the record to document a technical decision — context, options and rationale — so future teams understand why.

Important cautions

AI-generated ADR; refine with the team.
