

Business Continuity Plan

IT & Tech Compliance

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a practical business continuity / disaster recovery plan — critical-systems inventory with RTO/RPO, incident response per scenario, backup strategy and a testing schedule. Use this for the overall BCP; for step-by-step recovery use the Disaster Recovery Runbook, and to set targets use the RTO / RPO Calculator.

Purpose of this tool & output

Describe your IT systems and we draft a BCP / DR plan with RTO and RPO targets

How the output is used

Use the BCP/DR plan to keep the business running through disruption, with RTO/RPO targets, roles and recovery steps.

Important cautions

AI-generated BCP template. Test your actual DR procedures regularly and engage a business continuity specialist for critical systems.

Companion documents
