

Incident Response Plan

IT & Tech Compliance

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a complete incident response plan — roles, incident classification, per-threat playbooks, a notification matrix (incl. CERT-In/DPDPA timelines) and communication templates. Use this for the overall IRP; for a single-threat playbook use the Incident Runbook, and for breach notices use the Breach Notification Drafter.

Purpose of this tool & output

Describe your IT environment and we draft a complete incident response plan

How the output is used

Use the plan to respond to a security incident fast — roles, steps, communication and evidence handling.

Important cautions

AI-generated IRP template. Test and adapt with your actual security and legal team.

Companion documents

- Breach Notification Drafter
- Post-Incident / RCA Report
- Incident Runbook (per threat)
- Severity Classification Matrix

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and processes vary by state and change over time — confirm with your state authority.
