

Security Questionnaire Auto-Response

IT & Tech Compliance

Document type: Plan / SOP / strategy / guide · Generated 16 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts professional answers to a customer security questionnaire (CAIQ/SIG/custom) from your described security posture, flagging items that need human review. Use this for a filled-in questionnaire; for a reusable buyer-facing trust page use the Security Whitepaper Generator.

Purpose of this tool & output

Upload a customer security questionnaire and we draft answers based on your described security posture

How the output is used

Use the drafted answers to respond to a customer security questionnaire consistently, based on your actual posture.

Important cautions

AI-drafted responses. All answers must be reviewed and confirmed accurate by your security team before submission.
