This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Draft an affidavit with proper deponent details, numbered paragraphs, a verification clause and an oath block — with a note on stamp value and notarisation. Fill in the details below.

Purpose of this tool & output

Draft a sworn-statement affidavit

How the output is used

Use the draft to make a sworn statement — an affidavit stating facts on oath for filing or official use.

Who receives it

It is sworn before a notary or oath commissioner and filed with the court or authority that requires it.

How to submit / file it

Execute on the required stamp/paper, sworn and attested, then file or submit per the court/authority rules.

Who should vet it

A lawyer, to ensure the deponent, facts and verification are correct before it is sworn and filed.

Important cautions

AI-generated draft; must be sworn before a notary/oath commissioner; a lawyer can verify.
