

Data Breach Response Plan

Legal

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a data-breach response playbook aligned to DPDPA and CERT-In — phase-by-phase actions (detect, contain, assess, notify, remediate, review) with owners, notification obligations including CERT-In 6-hour reporting, and a breach register. Fill in the details below.

Purpose of this tool & output

Get an incident and notification playbook

How the output is used

Use it to be ready before a breach happens — an incident and notification playbook covering roles, containment and reporting.

Important cautions

AI-generated plan; align with DPDPA/CERT-In and legal counsel.
