

DG Packing & Labelling Guide

Logistics & Trade

Document type: Plan / SOP / strategy / guide · Generated 26 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Gives the UN-spec packaging, marks, labels and placard requirements for a dangerous good by hazard class and mode (IMDG/IATA/road), plus quantity-limit notes. Use it to pack DG compliantly before booking. To classify the goods first, use the Dangerous Goods Compliance Checker.

Purpose of this tool & output

Package dangerous goods compliantly

How the output is used

Use the guide to package dangerous goods compliantly per IMDG/IATA packing instructions.

Important cautions

AI-generated guide; a DG expert must certify compliance; rules are mode-specific.

Companion documents

- Dangerous Goods Compliance Checker
- SDS / MSDS Interpreter
- DG Declaration Generator
- Lithium Battery Shipping Guide

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and processes vary by state and change over time — confirm with your state authority.
