

Duty Drawback Estimator

Logistics & Trade

Document type: Financial model / analysis · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Estimates the duty drawback (All Industry Rate or brand rate) recoverable on your exports and explains the claim process. Use it to quantify and claim drawback on goods made from imported inputs. For the RoDTEP incentive and how it interacts with drawback, use the Export Incentive (RoDTEP) Guide.

Purpose of this tool & output

Estimate recoverable duty on re-export

How the output is used

Use it to estimate the duty recoverable on re-export under drawback, so you claim what you are entitled to.

Who should vet it

A customs broker (CHA), to confirm the drawback rate and eligibility.

Important cautions

AI-generated estimate; verify the AIR schedule and eligibility with a CHA.
