This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Checks whether a lower import duty is available under an Indian FTA/CEPA/CECA for your product and origin country, with the preferential rate, conditions and how to claim it. Use it to cut import duty legitimately. To confirm your goods actually qualify for that origin, use the Rules-of-Origin Checker.

Purpose of this tool & output

Find a lower duty under a trade agreement

How the output is used

Use it to find a lower import duty under an Indian FTA/CEPA for your product and origin, and how to claim it.

Who should vet it
