

Lithium Battery Shipping Guide

Logistics & Trade

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Gives the shipping requirements for lithium batteries — UN3480/3481/3090/3091, packing instructions, state-of-charge limits, watt-hour thresholds and the lithium-battery mark — by mode, with the key air-vs-sea differences. Use it before shipping batteries or battery-powered devices.

Purpose of this tool & output

Ship lithium batteries within the rules

How the output is used

Use the guide to ship lithium batteries within the rules — state of charge, packing and marks.

Important cautions

AI-generated guide; lithium rules change frequently; confirm current IATA/IMDG and a DG expert.
