

Supplier Concentration Risk Map

Logistics & Trade

Document type: Financial model / analysis · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Maps your supplier concentration and single-source exposure — spend share, sole-source items and single points of failure — and recommends mitigation. Use it to find where one supplier could halt you. For a full multi-dimensional review, use the Supply Chain Risk Assessment.

Purpose of this tool & output

Find your single-source exposure

How the output is used

Use the map to find single-source exposure in your supply base and to target where a second source matters most.

Who should vet it

A procurement lead, to confirm the concentration and criticality.

Important cautions

AI-generated map; validate spend and criticality data.
