

Boat Building Business Guide

Maritime, Shipping & Ports

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a guide to a boat-building or small-craft business — FRP or wood or aluminium boats for fishing, leisure, workboats or passenger craft — covering setup, design, materials, survey and market. Use it to build a boat-building business, a lower-capital entry than shipyards.

Purpose of this tool & output

Build a boat / small-craft business

How the output is used

Use it to build a boat or small-craft business — the design, materials, build process and market for small craft.

Important cautions

Boats for commercial and passenger use need survey and stability and safety compliance and passenger craft especially carry safety and liability risk. Confirm survey and registration requirements with the maritime or inland authority and prioritise stability and safety.
