

Bunkering Business Setup Guide

Maritime, Shipping & Ports

Document type: Plan / SOP / strategy / guide · Generated 16 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a setup plan for a marine bunkering (ship fuel) business — licence and infrastructure, quality and safety, supply and pricing — for supplying fuel to vessels. Use it to enter bunkering.

Purpose of this tool & output

Start a marine bunkering business

How the output is used

Use it to start a marine bunkering business — the licence, supply chain, quality and safety a bunker supplier needs.

Important cautions

Bunkering is high-value, quality-and-safety-and-pollution-critical and heavily licensed; quality disputes and spills carry serious financial and legal risk. Confirm all approvals and follow fuel-quality and MARPOL and safe-bunkering standards.
