Background

Builds a crew-management plan — manning, certification and currency, rotation and relief, payroll and welfare and compliance — for a vessel or managed fleet. Use it to run compliant, reliable crewing.

Purpose of this tool & output

Manage seafarer crewing end to end

How the output is used

Use it to manage seafarer crewing end to end — a crew management and manning guide across recruitment, certification and rotation.

Important cautions

Crewing must meet safe-manning, STCW certification and MLC obligations and overdue reliefs and lapsed certificates are serious; the no-fee-to-seafarer principle applies. Confirm current manning and certification and MLC requirements with DG Shipping.
